

Traffic Code

University of Louisiana at Lafayette

Introduction

The Traffic Code of the University of Louisiana at Lafayette outlines the regulations and requirements for parking and operating a vehicle on University property. This document supersedes the Traffic Code adopted on May 7, 2012.

The Traffic Code is established and enforced by the Office of Transportation Services and the University of Louisiana at Lafayette Police Department.

The operations of a vehicle on campus are regarded as a privilege and, as such, this privilege can be revoked whenever the ability of the Office of Transportation Services and/or the University of Police is compromised by the operator of a vehicle.

The University reserves the right to change any or all parts of the regulations, if necessary. All changes to the Traffic Code will be posted on the Office of Transportation Services' website: park.louisiana.edu.

In order to park a vehicle on University property, the operator must abide by all regulations in the Traffic Code. In addition to any penalties, the owner or driver is also subject to disciplinary action in accordance with the University's Code of Student Conduct and/or other forms of discipline.

Transportation Services makes every effort to ensure the accuracy of information provided on signage, websites and social media. However, if in doubt, please contact the Office directly.

B. General Rules

These general rules provide an overview of how to park on University property.

1. All vehicles which park on University-owned property must be registered with Transportation Services or be parked in the pay/visitor parking area. Vehicles are registered via the license plate; no physical permit will be issued.
2. A parking permit-real or virtual-serves as permission to park and does not guarantee a parking space. It only gives the opportunity to park within a specified area(s).
3. Vehicles may be 'booted' or towed after the issuance of the third (3rd) citation or at the discretion of Transportation Services.
4. Cars must be parked front (head) in to a designated parking area during enforcement hours. Vehicles which are backed into a space and do not have a front license plate will be issued a citation. Inability to locate a vacant space in an assigned parking lot is not justification for illegal parking. Overflow parking is available for this purpose.
5. If a vehicle is sold, traded or wrecked, it is the owner/driver's responsibility to change license plate information with Transportation Services.
6. Vehicles which are disabled must be reported to Transportation Services. Disabled vehicles may be parked on University property for no longer than 24 hours. Transportation Services can assist with calling a tow truck.
7. Transportation Services reserves the right to set aside parking areas for special events, e.g. concerts, athletic events, parades, festivals, etc. in all parking areas of the University campus. The University further reserves the right to temporarily block certain areas of streets and/or parking lots in order to facilitate repairs without notice to the general public.
8. Changes to the Traffic Code will be posted on the Office of Transportation Services' website: park.louisiana.edu and are approved by the Vice-President of Finance and Administration.
9. Failure to abide by a verbal parking directive by a representative of Transportation Services or a University Police Officer can result in immediate towing of the vehicle. It can also result in disciplinary action in accordance with the "Code of Student Conduct".
